Capabilities

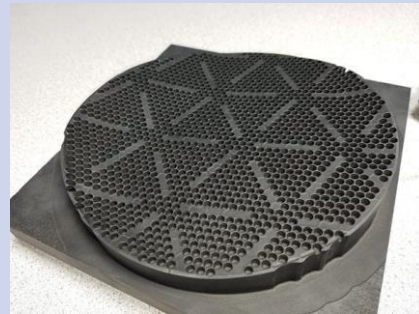

RMS Innovations Inc
YOUR PARTNER IN INJECTION MOLDS

RMS Innovations leverage state-of-the-art machinery, combined with diligence and experience, to keep your injection molding workflow humming with minimal interruptions. We offer professionally engineered Changes, Injection Mold Repairs, New Mold Making, Spotting CNC, EDM

RMS Innovations take care of the complete project to and from your facility.

- Design build of Injection molds
- Design build of Rapid Prototype tooling
- Design build of Compression tooling
- Injection Mold repairs
- Injection Mold Engineering changes
- Landing overseas tooling and preparing for production/graining
- Quick turnaround 24/7 emergency tooling support
- Excellent program management and customer support
- CNC machining outsource
- EDM Machining outsource
